Abstract of JP7213251

PURPOSE: To obtain a health food containing an antioxidant substance extracted from cacao beans with hot water or ethanol having excellent anti-oxidant action and harmless to a human body.

CONSTITUTION: This health food contains an antioxidant substance extracted from cacao beans, preferably de-fatted cacao mass with hot water or ethanol. In the case of extraction with hot water, the extraction is carried out at 80-100 deg.C for about 20-40 minutes and in the case of extraction with ethanol, the extraction is carried out by using a mixed solution of water/ethanol of 60/40-0/100 at a normal temperature for about 24 hours. The extracted amount is about five times as much as de-fatted cacao mass.
